TIP OF THE DAY

Owning & maintaining a home can mean a lot of paperwork. While important documents should be backed up & kept in fireproof storage, some things like **appliance manuals** can often be replaced if they're lost.

First, check the manufacturer's web site. Most have manuals of their current appliance models available for free download. Use www.adu.com.

ADU.COM

Click on the Manufacturer icon, then the name of the appliance you need the manual for.

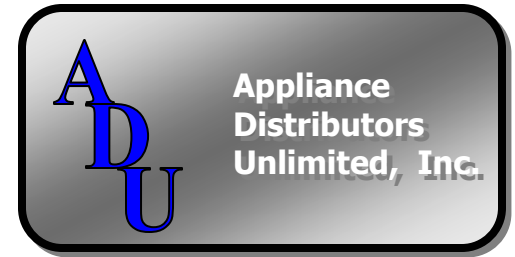

If you need help in locating the model and serial number identification tag on your appliance, log onto the appliance411.com website, select Repair Parts, then Model Tag Search. Type in brand & product type, click search for, then the answer appears.

THE APPLIANCE WIRE

From the President

One thing is for sure, the one constant in life is change. I have spent my life in the appliance industry and I have seen many changes, some good and of course, some not so good.

We have seen a change in products, service, distribution, manufacturers, and pricing. Through the years, with all that has changed, the one constant has been ADU, the place to get the information and support. Since 1982 ADU has offered it's dealers the formula...

Knowledge
Experience
Selection
Inspiration

ADU is dedicated to:

Providing Professional Sales People
Competitive Pricing
Best in Service
Quality Kitchen Appliances

To all of our dealers, thank You for your continued support.
