## THE APPLIANCE WIRE

From the President

We have added a new page to our website...called **The Living Kitchen**. When you access this page you will find an icon to click on and it will take you to a 3 minute virtual tour of our "Living Kitchen" filmed at our Linthicum Showroom. We also have the identical "Living Kitchen" in our Chantilly, Va. Showroom. Coming soon, we will launch a new program called "What's for Dinner?". This program will be introduced on TV (WBAL) and supported by multiple radio ads. Mix 106.5 FM & Lite 101.9 FM will carry "What's for Dinner?" promotion. Each week **ADU** will run a segment that will answer the question..."What's for Dinner?" This will give you the opportunity to print the recipe to make a special dinner for your family. **ADU** is very excited to launch this program "What's for Dinner?". We believe it will be very helpful and informative. Access this promotion and add to your family recipes. Good dinning and enjoy the new dishes.

Tom

**ADU** has the designer showrooms that will inspire you to choose the right appliances for your home.

Amana ASKO Best Bosch Dacor GE GE Café GE Monogram Jenn-Air KitchenAid Maytag
